

# Median Household Income

## New York State Counties

Median Household Income

Created 9/15/2021 by Andy Arthur in QGIS 3.20.

Data Source: 2019 American Community Survey.

Hexagram created using Census TIGER/Line by using the "geogrid" library in "R" then exported to a GeoJSON. Some counties were re-arranged to preserve spatial relationships more accurately over the raw export from "geogrid". Find the "R" code at [andyarthur.org](http://andyarthur.org).
